

HARA Score

HAA score is marked based on how well a system objects to the HAA policy.

As shown in the Table the HARA score will be based on this table (as of version 1.2 this is still in a very early stage we hope to develop this in the future)

The total score will be based on +25 to -25 positive following HARA policies, 0 and negative, following HARA policies.

Sl.No	I. HAA SCORING SYSTEM		
	Topic	Score Range	Weightage
1	Number of Guidelines followed.	0 to +10	20
2	Number of guidelines broken	0 to +10	10
3	Community Score	-10 to +10	5
4	Impossible for humans to do 4D's fields or other fields.	+1 or -1 or -2	2
